First Tracks Mechanical

Master Plumber Job Description

First Tracks Mechanical | Full time | Colorado

First Tracks Mechanical is seeking a Master Plumber to lead residential and commercial plumbing work. The role includes new construction, remodels, service, repairs, and installations for residential and commercial systems. You will plan work, solve field problems, support other plumbers, and communicate with customers and project teams.

Primary Responsibilities

- Perform and oversee residential and commercial plumbing installations, service, and repairs.
- Install and troubleshoot domestic water, DWV, natural gas, propane, and related systems.
- Read plans, specifications, and manufacturer instructions; plan materials and installation methods.
- Ensure plumbing work complies with applicable codes, permit requirements, and safe work practices.
- Coordinate with customers, project managers, contractors, other trades, and inspectors.
- Lead plumbing work in the field and provide technical guidance to journeymen and apprentices.
- Check work quality before inspections, completion, and maintain clean jobsites throughout life of project.
- Report progress, field issues, and material requests to company management.

Secondary Responsibilities

- Assist with estimating, material takeoffs, ordering, and project planning.
- Train and mentor less experienced plumbers.
- Support hydronic, boiler, and mechanical piping systems.
- Document labor, materials, change orders and service work accurately.
- Care for company tools and equipment and explain repair options to customers.

Minimum Qualifications

- High school diploma or GED and a valid Colorado Master Plumber license.
- Experience with plumbing installation, service, troubleshooting, and applicable plumbing codes.
- Ability to read construction plans and work independently on residential and commercial systems.
- Valid driver’s license and an acceptable driving record.
- Ability to use plumbing tools safely and perform field work, including lifting, climbing ladders, working in confined spaces, and working in varying weather.
- Clear communication and a professional approach with customers, coworkers, and contractors.

Preferred Qualifications

- Experience leading crews and training apprentices.
- Commercial plumbing, hydronic heating, or boiler piping experience.
- Experience with estimating, material takeoffs, and inspection coordination.

Benefits

- 6 paid holidays.
- PTO eligibility after 1 month of employment.
- Employer paid health insurance.
- Fuel reimbursement.

Compensation

$45–$65 per hour. Pay within this range depends on experience, licensing, technical skills, and leadership experience.
