First Tracks Mechanical

Plumbing Journeyman Job Description

First Tracks Mechanical | Full time | Colorado

First Tracks Mechanical is seeking a Plumbing Journeyman for residential and commercial plumbing work. The role includes new construction, remodels, service, repairs, and installations for residential and commercial systems. You will complete assigned work independently, guide apprentices, and coordinate with the Master Plumber, customers, and project teams.

Primary Responsibilities

- Install and repair domestic water, DWV, natural gas, propane, fixtures, and related plumbing systems.
- Complete rough-in, trim, equipment connections, testing, and punch-list work.
- Read plans, specifications, and manufacturer instructions; lay out work and identify material needs.
- Ensure installations comply with applicable plumbing codes, permit requirements, and safe work practices.
- Coordinate daily work with the Master Plumber, project managers, other trades, customers, and inspectors.
- Guide plumbing apprentices and check assigned work for quality and completeness.
- Troubleshoot field conditions and communicate changes before they affect schedule or cost.
- Maintain clean jobsites and report progress, issues, and material requests to management.

Secondary Responsibilities

- Assist with material takeoffs, ordering, and project planning.
- Perform plumbing service and repair calls as assigned.
- Support boiler, hydronic, and mechanical piping installations when qualified and needed.
- Document labor, materials, change orders, and service work accurately.
- Care for company tools, equipment, and vehicles and explain work to customers when appropriate.

Minimum Qualifications

- High school diploma or GED and a valid Colorado Journeyworker Plumber license.
- Experience installing and troubleshooting residential and commercial plumbing systems.
- Ability to read construction plans and organize assigned field work independently.
- Valid driver’s license and an acceptable driving record.
- Ability to use plumbing tools safely and perform field work, including lifting, climbing ladders, working in crawlspaces or confined spaces, and working in varying weather.
- Clear communication and a professional approach with customers, coworkers, and contractors.

Preferred Qualifications

- Commercial plumbing and gas piping experience.
- Experience with hydronic heating, boilers, or mechanical piping.
- Experience guiding apprentices, coordinating inspections, or performing material takeoffs.

Benefits

- 6 paid holidays.
- PTO eligibility after 1 month of employment.
- Employer paid health insurance.
- Fuel reimbursement.

Compensation

$28–$44 per hour. Pay within this range depends on experience, licensing, technical skills, and ability to lead assigned work.
